

# Homemade Blood Orange Lemonade

Sweet and fruity homemade lemonade that looks almost too pretty to be real

## INGREDIENTS

- 300ml freshly pressed blood orange juice (3-4 blood oranges)
- 100-150g sugar (or other sweetener)
- 1,5 l cold water
- 1 blood orange for decoration (optional)

## DIRECTIONS

1. Press about 300 ml of blood orange juice.
2. Take a small pot and add the sugar and the freshly pressed blood orange juice to it.
3. Heat the sugar and the blood orange juice on low to medium heat until the sugar has completely dissolved. Make sure not to boil. Once sugar has melted, remove the syrup from the heat.
4. Fill up a big jug with 1,5 litres of cold water. Strain the blood orange syrup with a sieve and add the strained syrup to the jug with water. Mix shortly.
5. Add some fresh slices of blood orange for decoration.
6. Enjoy the blood orange lemonade fresh with some slices of fresh fruit.
